Remarks

The Office has restricted the present application to one of three claim groups. Applicants elect Group I, claims 1-44, drawn to reduced seed-oil content plants.

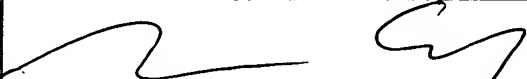

The Office also has indicated that Applicants must further elect one of (A) suppressing seed-oil biosynthesis or (B) suppressing seed-oil storage. Applicants elect (A), suppressing seed-oil biosynthesis.

The Office also has indicated that should applicants elect Group I (A), they also must further elect one or two elements from the list enumerated in (i)-(iv) and one of the elements from the list enumerated in (a)-(f). Applicants therefore elect (i) carbonic anhydrase and (iv) DGAT from the first list and (f) RNAi from the second list.

In summary, Applicants have elected:

I	claims 1-44	(restriction)
	(A) suppressing seed-oil biosynthesis	(species)
	(i) carbonic anhydrase	
	(iv) DGAT	
	(f) RNAi	

Applicants now request favorable consideration of the claims at this time.
